Summary: Would require an employer to require each person who is an employee or independent contractor, and who is eligible to receive the COVID-19 vaccine, to show proof to the employer, or an authorized agent thereof, that the person has been vaccinated against COVID-19. This bill would establish an exception from this vaccination requirement for a person who is ineligible to receive a COVID-19 vaccine due to a medical condition or disability or because of a sincerely held religious belief, as specified, and would require compliance with various other state and federal laws. The bill would require proof-of-vaccination status to be obtained in a manner that complies with federal and state privacy laws and not be retained by the employer, unless the person authorizes the employer to retain proof.

Summary: Current law requires the Natural Resources Agency, by July 1, 2017, and every 3 years thereafter, to update the state's climate adaptation strategy to identify vulnerabilities to climate change by sectors and priority actions needed to reduce the risks in those sectors. Current law requires the agency to explore, and authorizes the agency to implement, options within the agency's jurisdiction to establish a more coordinated and efficient regulatory review and permitting process for coastal adaptation projects that use natural infrastructure. This bill would require the agency, on or before July 1, 2023, and in consultation with the State Water Resources Control Board, the Department of Food and Agriculture, and the California Environmental Protection Agency, to establish an interagency working group to accelerate and streamline permitting for ecosystem restoration and climate adaptation projects. The bill would require the interagency working group to develop resources for permit applicants and permittees that include, but are not limited to, a unified, online permit application process for existing and proposed projects that includes all appropriate state agencies with regulatory authority over ecosystem restoration and climate adaptation projects.

Summary: Current law prohibits the importation, transportation, possession, or live release of specified wild animals, except under a revocable, nontransferable permit. Current law permits the Fish and Game Commission, by regulation, and in cooperation with the Department of Food and Agriculture, to add or delete wild animals from the list of specified wild animals. Current law requires the Department of Fish and Wildlife to publish, from time to time as changes arise, a list of animals that may not be imported or transported into this state. Under current law, any violation of the Fish and Game Code, or of any rule, regulation, or order made or adopted under this code, is a crime. This bill would authorize the commission to adopt regulations to limit the number of individuals or authorized uses of a wild animal, or prohibit the importation, transportation, or possession of any wild animal. Summary: Current law authorizes the Department of Fish and Wildlife, or any other public agency, to propose a regional conservation investment strategy, to be developed in consultation with applicable local agencies that have land use authority, for the purpose of informing science-based nonbinding and voluntary conservation actions and habitat enhancement actions that would advance the conservation of focal species and provide voluntary nonbinding guidance for various activities. Current law authorizes the department to approve a regional conservation investment strategy only if one or more state agencies request approval of the strategy through a letter sent to the Director of Fish and Wildlife, as prescribed. Current law requires the strategy to contain specified information and authorizes inclusion of a regional conservation assessment proposed by the department or any other public agency, and approved by the department, in the strategy. Current law authorizes the department to approve a regional conservation investment strategy or amended strategy for an initial period of up to 10 years after a public meeting and a public comment period regarding the proposed strategy or amended strategy have been held and after it finds that the strategy meets certain requirements. Summary: Current law defines the term "wild pig" for purposes of managing, taking, or hunting that species and classifies the wild pig as a game mammal. Current law requires a person to procure, as specified, either a hunting license and a wild pig tag or a depredation permit in order to take a wild pig. Summary: Would require, on or before January 1, 2023, the State Department of Education, in consultation with the Department of Justice, to develop model content for use by local educational agencies related to a threat or perceived threat of an incident of mass casualties at a school. Using the model content, the bill would require local educational agencies to require the parents or guardians of a pupil to disclose whether any firearms are located at the home of the pupil and to answer questions about the ownership, storage, and accessibility by the pupil of the firearms. The bill would require local educational agencies to include information related to the safe storage of firearms in the annual notification provided to the parents or guardians of a pupil. If a school official is alerted to or observes any threat or perceived threat of an incident of mass casualties at a school, the bill

would require a report of the threat or perceived threat to be immediately made to law enforcement and the Department of Justice. The bill would require a school or local educational agency, in consultation with law enforcement, to conduct immediately an investigation and threat assessment, as specified.

Summary: Current law, except as specifically exempted, prohibits an officer, employee, operator, lessee, or licensee of the 32nd District Agricultural Association, as defined, from contracting for, authorizing, or allowing the sale of any firearm, firearm precursor part, or ammunition on the property or in the buildings that comprise the OC Fair and Event Center, as specified. This bill would, except as exempted, prohibit a state officer or employee, or operator, lessee, or licensee of any state-owned property, from contracting for, authorizing, or allowing the sale of any firearm, firearm precursor part, or ammunition on state property, as specified. Because a violation of this prohibition would be a crime, this bill would impose a state-mandated local program.

Summary: Falconiformes and Strigiformes (birds-of-prey) used in the practice of falconry. Current law authorizes the Fish and Game Commission to authorize the issuance and provide for the revocation of licenses and permits to persons for the practice of falconry. Current law also prohibits the taking or possession at any time of fully protected birds, as specified. Current law designates the American peregrine falcon as a fully protected bird. This bill would exempt the capture, possession, or training of an American peregrine falcon in the practice of falconry from the prohibitions in the fully protected bird statute. The bill would require the department to submit 2 reports to certain committees of the Legislature, on or before specified dates, regarding the use of American peregrine falcons and other raptors in falconry, as specified.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report (EIR) on a project that the lead agency proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would additionally include, as a project eligible for certification, a clean energy transmission project that upgrades existing transmission infrastructure to bring renewable energy from an offshore wind project located within or adjacent to the County of Humboldt that meets specified requirements. The bill would also require the quantification and mitigation of the impacts of a clean energy transmission project, as specified. Because the bill would require the lead agency to prepare concurrently the record of proceedings for these additional projects that are certified by the Governor, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Summary: Current law, until July 1, 2022, requires a person taking steelhead trout in inland waters to possess a steelhead trout fishing report-restoration card, issued by the Department of Fish and Wildlife for a specified fee, on which the person is required to record certain information for the department when catching steelhead trout. Upon appropriation by the Legislature, moneys from the fees are required to be expended only to monitor, restore, or enhance steelhead trout resources and to administer the fishing report-restoration card program. Current law requires the department to report to the Legislature on or before July 1, 2021, regarding the steelhead trout projects undertaken using these revenues, the benefits derived, and its recommendations for revising the fishing report-restoration card requirement, if any. This bill would extend the operation of this report-restoration card program until January 1, 2028.
